

MAKELARK

BRIDGE STRENGTH

Compare a flat strip of paper with a folded one and see which holds more weight.

AGE 8+

10 MIN

STRUCTURE EXPERIMENT

FLAT STRIP

A horizontal rectangle representing a flat strip of paper.

FOLD INTO A U OR TRIANGLE

A horizontal rectangle representing a paper strip with two vertical dashed lines indicating where to fold.

TRY THIS

Observe what happens before reading an explanation. The surprise is part of the experiment.
